

**TO:** UDOT Project Managers, Local Governments, and Consultants  
**From:** Jeff Saddler, Training Coordinator  
**RE:** NICET Program  
**Date:** December 20, 2004

Consultant Services has received many calls regarding the NICET Program. This memo is to provide clarification and assistance to those who may have questions.

To my knowledge, we are no longer using the NICET Program in the department. It was dropped from use by Construction back in 2001 and by Maintenance in 2002. Construction developed the T3 program and Maintenance developed and used the M3 program. Due to the combination of the two divisions, both of those programs were combined into the TEP program about 1 year ago. This is the current replacement for NICET for our Transportation Technicians.

If you have questions please call me at (801) 965-4912 or at [jsaddler@utah.gov](mailto:jsaddler@utah.gov)
